Hi,

I am a canadian citizen but I feel anybody in the world who was at anytime forced to use MS-Windows should have the right to disagree with the settlement.

I really wish IBM OS/2 had not been "killed" by Microsoft monopoly.

After reading the court's findings of facts anybody should realize that Microsoft is "Pure Evil" and should be treated as such.

I wish that the Judgment should last at least FOREVER and not for a little five year. MS has harm the PC industry for way more than five year, and it's not finished yet.

How could MS repay the harm done? It's impossible to calculate. It's a shame death penalty is not applicable to companies because It's the only settlement that would satisfy me. MS has "murdered" so many other companies.

Sorry to be so rude, I am always filled with hatred when talking about Microsoft and if you knew me you would be surprised I can feel this way because I am a very calm and non-aggressive person.

Best regards.
